

## **Pre-camp readings about data science**

The following links are to readings in the form of html-slide decks with linked external content. Please review these overview materials, motivating and exemplifying topics that are central to data science:

### **Discipline and professional community**

<https://jakerylandwilliams.github.io/Intro2DS/ch01.html>

### **Projects, products, and life cycles**

<https://jakerylandwilliams.github.io/Intro2DS/ch02.html>

### **Data types**

<https://jakerylandwilliams.github.io/Intro2DS/ch03.html>

### **Data acquisition**

<https://jakerylandwilliams.github.io/Intro2DS/ch06.html>

### **Data pre-processing**

<https://jakerylandwilliams.github.io/Intro2DS/ch07.html>

### **Google web search as the product of a canonical data science project**

<https://jakerylandwilliams.github.io/Intro2DS/ch14.html>
